(New Haven, CT), August 15, 2011 - Newman Architects has opened an office in Washington, DC. The office is located in the Georgetown neighborhood (1054 31st Street, NW, Suite 135, Washington, DC, 20007; Phone: 202.525.2726).

Design leadership of all Newman Architects projects continues under four principals: Herbert S Newman, Joseph Schiffer, Richard Munday, and Peter Newman. Newman Architects will continue to provide master planning, programming, architectural and interior design services out of both Connecticut and Washington DC offices.

The Washington DC office is be managed by Associate Principal Steven J. Orlansky, AIA, LEED AP. With the firm since 2000, and a Senior Project Architect with over 12 years of experience in a wide variety of project types, Steven has been at the forefront of the Newman Architects' project delivery, especially as its relates to innovative development of BIM standards and 3D systems coordination. Most recently, Steven played an integral role on Patapsco Hall, a Design/Build Residence Hall project at the University of Maryland, Baltimore County, and on the Comprehensive Renovation of Yale University's Calhoun College.

Newman Architects is an award-winning architectural practice that has been in business for over 45 years. The firm's extensive portfolio of work throughout the United States includes new construction and renovation for Federal, military, municipal, higher education, multi-family housing, private corporations, transportation, clinical, and K-12 projects. The new office will enhance the firm's ability to serve clients in the Mid-Atlantic region. Newman Architects' current and recent clients in the region include the Samuel Slover Memorial Library in downtown Norfolk, VA; the University of Maryland, Baltimore County; Elon University, and St. Mary's College of Maryland. For a comprehensive list of clients, please visit <http://www.newmanarchitects.com/clients.html>.

Newman Architects is recognized for the design of new buildings, and the renovation and restoration of landmark buildings, and is noted for the design of buildings that enhance their physical setting and address human behavior patterns of use and social interaction. Newman Architects is the recipient of over 150 awards for design excellence, including five national AIA Honor Awards.
